### **CCTV Installation**

Secure your property with high-quality CCTV systems, providing 24/7 surveillance and peace of mind for homes and businesses.

### **Door Access Control**

Manage entry points securely with advanced door access systems, including biometric, RFID, and keycard solutions for all premises.

### **PABX Systems**

Enhance communication with scalable PABX systems, offering seamless internal and external connectivity for businesses of all sizes.

### **Wi-Fi Access Points:**

Boost your network with reliable Wi-Fi access points, ensuring seamless, high-speed connectivity across large and complex spaces.

### **Video Intercom Systems**

Improve security with video intercom systems, enabling clear, real-time communication and visitor verification from anywhere.

### **Speaker Systems**

Experience superior sound quality with custom-installed speaker systems, perfect for indoor, outdoor, and home theater environments.

## Attendance Machines

Streamline workforce management with accurate attendance machines, featuring biometric, card-based, and online tracking options.

## Electronic Article Surveillance (EAS)

Protect retail merchandise with discreet EAS systems, designed to prevent theft and secure inventory effectively.

## Structured Cabling

Optimize your network infrastructure with organized structured cabling, ensuring reliable connectivity and easy management for all setups.

Your satisfaction is our  
commitment.

*Thank you for exploring our services.*
